## **DETAILED ACTION**

### ***Application Status***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 19, 2007 has been entered.

### ***Claim Disposition***

2. Claims 1-10 and 55-62 are pending and are under examination.
3. This application is in condition for allowance except for the following formal matters:

### ***New-Claim Objection***

4. Claims 1-10 and 55-62 are objected to because of the following informalities: Claims 1 and 60-62 are objected for the recitation of "SEQ ID NO:" instead of "SEQ ID NOS:". The dependent claims hereto are included.

Correction is required.

***New-Sequence Compliance Objection***

5. It is noted that applicant filed a sequence listing in paper and computer readable form (CRF), however, the "sequence statement" is missing. Thus, the statement that affirms that the content of the sequence listing information in the CRF is identical to the paper copy of the sequence listing, and, where applicable, includes no new matter is missing from the application. Therefore, the instant application fails to fully comply with the sequence rules. A signed statement is required.

***Specification***

6. The specification is objected to because of the following informalities:

The specification is objected to because trademarks are disclosed throughout the instant specification and not all of them are capitalized or accompanied by the generic terminology. The use of the trademarks such as GENBANK™, TWEEN-20<sup>□</sup>, TRITON-X-100<sup>□</sup> for example, have been noted in this application (see pages 10 and 17). It should be capitalized wherever it appears and be accompanied by the generic terminology. Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner, which might adversely affect their validity as trademarks.

5. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1652

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Response to Arguments***

6. The response filed has been considered. Note that the rejections of record have been withdrawn, thus applicant's arguments are moot.

***Conclusion***

7. No claims are allowable based on the objection above.
